

Effective 8/20/2020

## NOTICE

The Missouri Housing Development Commission (MHDC) is still awaiting further guidance from the Department of Housing and Urban Development (HUD) in order to release the full application for the ESG CARES program and award funding. At this time, the ESG CARES funds are not yet available. The Notice of Funding Availability (NoFA) states the following:

"The application for funding will remain available until **5:00 p.m. on August 20, 2020 or until all funds have been awarded**, in accordance with the parameters of the CARES Act."

Due to the fact that the full application has not yet been released and no funds have yet been awarded the deadline for submission has been extended until **October 1, 2020** or until MHDC is able to award funds.

We apologize for the inconvenience and assure you that MHDC staff is working hard to ensure these funds are released as quickly as possible. A letter of intent must be submitted by all organizations interested in receiving CARES Act ESG funds. All organizations who have submitted a letter of intent will be notified directly once the application has been released.

Please review the *CARES Act Overview and Application Instructions* for more information regarding the letter of intent process.
