The Next Step Program gives potential first-time and repeat homebuyers outside the First Place Program income limits the edge they need to purchase their first home. Next Step loans have higher income and purchase price limits than the MHDC First Place Loan Program. This is a great option for first-time buyers with higher incomes. For potential homebuyers with limited savings, the program provides the option for cash assistance to be used for down payment and closing costs. Loans are provided by Certified Lenders for any eligible property in the state of Missouri. All interest rates and allowable closing costs are set by Missouri Housing Development Commission with no minimum down payment or minimum loan amounts.

**Next Step With Down Payment Assistance**

Not only can homebuyers receive lower rates, qualified homebuyers are eligible to receive a 100% forgivable second loan equal to 4% of the total mortgage amount to help with down payment and closing costs. The second loan will be forgiven if the borrower stays in the home and maintains the original loan for ten years. After year five, the second mortgage will begin diminishing by 1/60 every month until year 10 when it will be completely forgiven.

**Next Step Without Down Payment Assistance**

In many instances, qualified homebuyers may opt to use the Next Step Program without Down Payment Assistance to save more money by receiving lower interest rates and lower monthly payments. Typically, these loans are .25% to .50% below the rates offered with Down Payment Assistance (subject to market trends). Non-Down Payment Assistance Loans are best for buyers who have adequate funds to pay down payment and closing costs but are looking to save more money with better rates.

**Mortgage Credit Certificates (MCC)**

Some first-time borrowers may be able to pair their Next Step Loan with an MCC to save money over time. An MCC allows a homeowner to receive a federal tax credit for a portion of their mortgage interest. Pairing a Next Step loan product with an MCC can put up to $2,000 a year back into your pocket. A borrower must be a first-time homebuyer*, meet income and purchase price limits, and meet minimum credit score requirements.
