OVERVIEW

The following workbook contains supporting documentation for the following:

- A. Missouri Counties by Severe Cost Burden (SCB)
- B. Missouri Counties by Area Median Income (AMI)
- C. Rural Underserved Counties
- D. Workforce Housing Priority
- E. Opportunity Areas

A. Severe Cost Burden by County

MHDC has identified severely cost burdened (SCB) households as a strategic priority for affordable housing development, as described in the Five-Year Strategic Plan for Affordable Housing for the State of Missouri (originally published in 2020, updated annually). Households are considered severely cost burdened if more than 50% of gross monthly income is spent on housing-related expenses.

See the **Severe Cost Burden Among Renters by County** tables (pp. 4-5) for a list of qualifying counties.

B. Area Median Income

Area Median Incomes (AMI) are calculated by HUD for each county and each HUD Fair Market Rent Area (FMR) annually. See the **Area Median Income by County** (p. 6) and **Area Median Income by HUD Metropolitan Fair Market Rent/Income Limits Area (HMFA)** (p. 7) tables for current AMI data.

C. Rural Underserved Counties

Using local population, demographic, and housing data for each Missouri county, MHDC has identified rural counties across the state that are considered underserved. For a list and map of counties that qualify as rural underserved counties, see the **Rural Underserved Counties** table (p. 8).

D. Workforce Housing Priority

Developments in counties with a median income less than the 2024 statewide median income (as established and published by HUD) are eligible for a basis increase, provided that 15% to 25% of the total units in the development are set-aside for households earning between 60% and 80% (workforce units) of the area median income. See **Workforce Housing Priority Eligible Counties** (pp. 9-11).

E. Opportunity Areas

MHDC encourages affordable housing developments in opportunity areas by targeting communities that meet the following criteria:

- Access to high-performing school systems,
- Access to transportation,
- Access to employment, and
- Located in a census tract with a 15% or lower poverty rate.

Opportunity Areas – Poverty Rate by Census Tract (pp. 12-28) lists all census tracts in Missouri, with highlighted census tracts being those with a poverty rate lesser than or equal to 15%.

SEVERE COST BURDEN AMONG RENTERS BY COUNTY

Greater than 20% of Renters

County	SCB %
