## **INTRODUCTION**

This document is a Request for Proposal (RFP) to secure Construction Cost Estimating services for the Missouri Housing Development Commission (MHDC). The goal of this RFP is to identify qualified firms or individuals to contract with MHDC to provide upfront construction cost analysis for the construction of new as well as rehabilitated single family and multi-family housing.

These firms or individuals must be capable of providing the required services in a professional, timely, and cost-conscious manner. The Respondent will contract with MHDC to perform this service at the time when the firm submission documents, plans, and specifications have been submitted for each development.

This RFP is divided into the following sections: Introduction, Purpose, Overview, Terms and Conditions governing this RFP, Instructions to Respondents, Proposal Preparation, Appendix A – Scope of Work and Appendix B – Qualifications.

## **PURPOSE**

The purpose of this RFP is to determine qualifications of the Respondents and to invite proposals from Respondents for the review of the proposed construction costs in relation to the plans and specifications directly for MHDC.

## **MISSOURI HOUSING DEVELOPMENT COMMISSION OVERVIEW**

The Missouri Housing Development Commission (“MHDC” or the “Commission”) is a governmental instrumentality of the state of Missouri and a body corporate and politic. In 1969, the 75th General Assembly of Missouri, in the face of a general housing shortage severely affecting low and moderate income persons, established the Commission in order to increase the availability of decent, safe and sanitary housing at prices within the means of low and moderate income persons. The Commission’s authority is derived from Chapter 215 of the Revised Statutes of Missouri, as amended and supplemented. Further information about the Commission and its programs are available on the Commission’s website at [www.mhdc.com](http://www.mhdc.com).

Through its Rental Production Department, the Commission administers a variety of state and federal funding sources to finance the construction and rehabilitation of affordable rental housing for low-income Missourians. Funding is made available through a combination of issuing tax credits and tax-exempt bonds, providing grants, and making low-interest loans. Sources include the Federal Low Income Housing Tax Credits, Missouri Low Income Housing Tax Credit, HOME Investment Partnership Program, federal Risk-Share insurance, National Housing Trust Fund, and the Affordable Housing Assistance Program, as well as the Commission’s own general fund balances. The Commission’s rental production activities are governed by the laws and regulations of each particular funding source as well as Commission policy.
