

# 2022 MARKET STUDY GUIDELINE REVIEW

Missouri Housing Development Commission Department of Rental Production August 10, 2022

MHDC.com

### **APPROVED APPRAISERS**

The list of appraisers approved by MHDC to develop market studies for 2022 applications is on our website.

## LETTER OF TRANSMITTAL

The report must have a transmittal letter. At a minimum, the letter must state:

- The analyst is a disinterested third party and that there is no identity of interest between the analyst and the client and intended users for whom the report is prepared.
- Any and all recommendations and conclusions are based solely on professional opinion and best efforts.
- The subject, neighborhood and comparables were inspected within the past three months of the effective date.
- The analyst has read the 2022 guidelines. Reports not including this statement will be subject to rejection and/or sent back to the sponsoring developer.

## **UPDATING MARKET STUDIES**

The market study and MHDC Form 1300 must have been prepared or updated within 6 months of the submission date. Previously submitted studies can be used from a previous funding round if they have been properly updated. MHDC will not accept a market study that is more than 24 months past the effective date of the originally submitted market study.

#### UPDATED MARKET STUDY REQUIREMENTS

If the market study is an update, an update letter must be provided. The update letter should recap the project and describe any changes to data in the market study.

Acceptable updated market studies must include:

- \*Re-inspection of the site and neighborhood.
- Changes to the development from the previously submitted market study.
- Rents if they are different and an updated weighted overall Rent Advantage/Disadvantage Chart.

#### UPDATED MARKET STUDY REQUIREMENTS

Review of the economic conditions and the demand for the proposed development.

A statement of positive and negative attributes that will affect the property's marketability, performance and lease up.

#### **Economic Development**

The market study should contain information that may be referenced in exhibits that are required for points in the Economic Development category as outlined in the 2022 Qualified Application Plan (QAP), the 2022 Developer's Guide and is outlined as item #4 on the FIN-125 form.

#### PLEASE BE CERTAIN THAT THE MARKET STUDY YOU PROVIDE INCLUDES THE FOLLOWING ITEMS:

- \*What positive and negative locational factors affect the subject site.
- \*What the achievable restricted rent is per unit type.
- \*What the achievable market rent is per unit type.
- ✤If the market supports the developers projected restricted rents.
- \*The point in time when the property is expected to reach stabilization.
- ✤If there are any risks to these projections.
- If there are enough households at sufficient income levels to make the project viable.

## **PICTURE CAPTIONS**

Photos must be "first party" photos taken by the appraiser during the site inspection. "Second party" photos are not allowed. Photo captions need to be informative, including the street name, direction of the view and where the subject is in relation to the street.

Subject Site – Looking East from South Broadway Street

## **ONE-MILE RADIUS RULE**

The one-mile radius rule has been simplified to where the report should describe if the proposal is within a one-mile radius of any State LIHTC, Federal LIHTC, HOME, or Fund Balance financed (all considered to be MHDC funded) developments constructed within the previous two fiscal year funding cycles. The occupancy of these properties should be provided.

• One mile radius

### **CENSUS DATA**

Census tract data is NOT required for all of the tracts in the PMA, just the ones that abut the subject's tract, and that is only for proposals in the St. Louis or Kansas City regions (as defined in the guidelines).

#### **CRIME RATES**

Crime data must show violent crime rates for the subject neighborhood as defined and provided by AreaVibes.com.

#### YOUR MARKET STUDY SHOULD <u>NOT</u> QUOTE NEIGHBORHOODSCOUT.COM

AreaVibes , as we speak, is free of charge.

Statistic	Reported Incidents	Montgomery City /100k people	Missouri /100k people	National /100k people
Total crime	36	1,360	3,074	2,346
Murder	0	0.0	11.8	6,5
Rape	0	0.0	43.3	38.4
Robbery	0	0.0	74.4	73.9
Assault	0	0.0	413.3	279.7
Violent crime	0	0	543	388
Burglary	10	377.8	378.8	314.2
Theft	22	831.1	1,759.1	1,398.0
Vehicle theft	4	151.1	393.2	246.0
Property crime	36	1,360	2,531	1,958
Property crime				

## SCHOOL DISTRICT RATINGS

School district ratings must be included for both family AND senior proposals. Provide both the Academic Achievement Chart and the Subgroup Achievement Charts for the subject's school district.

#### POPULATION, HOUSEHOLD AND INCOME CHARACTERISTICS

The American Community Survey data previously found in the Census Bureau's Fact Finder website has moved to the United States Census Bureau website.

The market study should provide <u>household</u> poverty estimates, not family poverty estimates.

1 Result	American Community Survey B17017   POVERTY STATUS IN THE PAS 2020: ACS 5-Year Estimates Detailed Tables V   Universe	OLD TYPE BY AGE OF H				
American Community Survey B17017   POVERTY STATUS IN THE PAST 12 MONTHS		Image: Non-State     Image: Non-State       Margin of Error     Margin of Error	Restore			
BY HOUSEHOLD TYPE BY AGE OF HOUSEHOLDER		Census Tract 9502, Adair County, Missouri				
2020: ACS 5-Year Estimates Detailed Tables	Label	Estimate	Margin of Error			
	✓ Total:	1,085	±121			
	✓ Income in the past 12 months below poverty level:	174	±55			
	✓ Family households:	76	±37			
	✓ Married-couple family:	55	±33			
	Householder under 25 years	0	±12			

## **MIGRATION DATA**

An example of the required format for migration data is provided in the Market Study Guidelines.

Provide data and analysis on migration by census tract for the subject census tract and all abutting census tracts.

MIGRATION									
	220.00 (Sul	bject)(Clay)	219.00	) (Clay)	306.01 (Platte)				
	Number %		Number	%	Number	%			
Same House One Year Ago	6191	89.9%	5277	94.0%	1239	84.5%			
Moved within Same County	173	173 2.5%		2.3%	26	1.8%			
Moved from within State	338	338 4.9%		0.8%	111	7.6%			
Moved from Different State	183	2.7%	165	2.9%	90	6.1%			
Moved from Abroad	0 0.0%		0 0.0%		0	0.0%			
Total	6885		5615		1466				

#### HOUSING MARKET AND COMPETITIVE ENVIRONMENT

MHDC wants to know if the percentage of affordable housing units in the subject's census tract exceeds 20% of the total housing units in those tracts. If the subject is in Kansas City or St. Louis regions the information is required for the abutting census tracts.

A	В	С	D	E	F	G	H	I	J	K

## **SECTION 8 DATA LINK**

An example of where to find Section 8 information is provided in the Market Study Guidelines.

https://www.huduser.gov/portal/datasets/assthsg.html#2009-2019\_data

## **COMPARABLES REQUIRED**

Both the <u>market</u> rent analysis and the <u>affordable</u> rent analysis must be based on comparables. Both analyses require the use of adjustment grids and reasons for any adjustments.

The market rent analysis is to be based on market comparables and the affordable rent analysis is to be based on LIHTC comparables.

The report must contain a profile for all comparables.

R	ent Comparability	arid	Unit Ty	9e -	One Bed	room	J		Subject's	FHA	4:

### **REAL ESTATE RENT**

The rent comparables should NOT be adjusted for proposed special needs or service enrichment.

Any contributory value of these items should be discussed in a separate paragraph below the adjustment grid, showing the 'real estate' rent (from the grid) and the 'enhanced' rent, if any.

#### WEIGHTED OVERALL RENT ADVANTAGE DISADVANTAGE CHART

 The affordable rent advantage/disadvantage is to be displayed in chart form. Show the advantage/disadvantage per unit type for each percentage of AMI (Area Median Income). The chart should also display a weighted overall rent advantage/disadvantage percentage.

Unit Type	% of AMI	# Units per type	Proposed Affordable Net Rent	Market Rent	% Rent Advantage/ Disadvantage	Unit %	Weighted Overall Rent Advantage/ Disadvantage
1bd/1ba	30	2	410	700	41.43	0.05	2.07
2bd/1ba	30	4	485	900	46.11	0.10	4.61
1bd/1ba	50	8	530	700	24.29	0.20	4.86
2bd/1ba	50	4	630	900	30.00	0.10	3.00
1bd/1ba	60	14	575	700	17.86	0.35	6.25
2bd/1ba	60	8	675	900	25.00	0.20	5.00
TOTAL		40				1.00	25.79 🧹 🗌

#### INCOME AVERAGING MINIMUM SET ASIDE

The Average Income (AI) minimum set aside allows developments to serve households earning up to 80% of the Area Median Income (AMI) in credit qualified units, so long as the average income/rent limit in the development is 60% or less of AMI. Owners electing the AI minimum set aside must commit to having at least 40% of the units in the development affordable to eligible households.

If a development elects Income Averaging, market studies must establish rents for all unit types and rents for all rent levels. The beginning or lowest rent level is 30% and are to be set in 10% increments.

#### INCOME AVERAGING MINIMUM SET ASIDE

For example, if the project has two and three bedroom units, the market study must provide LIHTC rents at 30, 40, 50, 60, 70 and 80% levels, along with market rent for the two and three bedroom units.

Additional data will need to be included in the following three sections of the market study:

#### Affordability Analysis

Include the estimation of minimum and the maximum annual income requirements calculated in accordance with HUD and restricted rent guidelines for each unit type at all AMI levels based on household size and potential proposed net or gross rents.

#### INCOME AVERAGING MINIMUM SET ASIDE

Demand Analysis

Establish the number of potential income qualified households for the subjects affordable units and for all income bands.

Market and Achievable Rent Analysis

Adjustment grids and adjustment explanations are required for the market rate rents and achievable/affordable rents for each major unit type in the project. A chart with projected potential rents for all unit types at all AMI levels and market rent will need to be included in the market study.

#### SORT TABLE DATA

Sort data in tables (such as number employed per industry or median/average wages) by a pertinent variable so the data is easy to interpret.

Table E1: Major Employers Kansas City, MO-KS, CBSA					
Company	Product	Employees			
North Kansas City Hospital	Health Care	2,499			
Commerce Bank	Financial Activities	2,450			
UMB Financial Corp.	Financial Activities	2,445			
Shawnee Mission Medical Center	Health Care	2,363			
Unified Government of Wyandotte County	County Government	2,300			
State of Kansas	State Government	2,132			
U.S. Bank	Financial Activities	2,100			
Blue Springs School District	Public School District	2,011			
Liberty Public Schools	Public School District	1,985			
Kansas City, Missouri Police Department	Law Enforcement	1,882			
Independence School District	Public School District	1,600			
Orbital ATK Small Caliber Systems	Military Ammunition Manufacturing	1,600			
Park Hill School District	Public School District	1,532			
Kiewit Engineering/Power	Energy Sector Engineering	1,500			
Raytown Quality Schools	Public School District	1,400			
State Street	Financial Activities	1,375			
Johnson Co. Community College	Higher Education	1,367			
Liberty Hospital	Health Care	1,213			
Jackson County	County Government	1,139			

## SHOW THE MATH!

 Any numerical conclusions in any part of the study are to be supported by the formula or math used to create that conclusion.
